

The Training Course will propose seminar lessons (informative and technical sessions) and interactive exercises, visits to local cooperatives and informal lessons.

The methodological approach of the training course is based on non-formal learning, experiential learning in particular, where teamwork and active participation will be central.

Among the activities there will be:

- “Agora: the Fair of the Associations” where the participants of each partner association will manage a place where they will present their reality of belonging,
- presentation - debate of the experience of volunteers of National Civil Service and European Voluntary Service;
- proposal of ideas about possible International projects on the theme of cooperation..

And, at the end of the week, we will greet in joy with the intercultural party!!

### If you want to collaborate with the project:

- hosting one or more young Europeans,
- proposing form of social partnership, cultural, tourism, trade with the European partners,

Consorzium Leonardo (PN) - Italy

**Casarsa della Delizia (PN) - Italy**

**25<sup>th</sup> January - 1<sup>st</sup> February 2015**

Volunteer association “Il Noce”

## OBJECTIVES:

Youth unemployment is a very pressing and current topic in all the countries involved in this project.

**WOSOCOOP** aims to contribute facing the problem through seeking the following objectives:

- to foster youth employment through providing youth with the skills and knowledge to easily approach the labour market;
- introduce young people from different countries to co-operation;
- to increase youth active participation in the society.

The project intends to reach these objectives by offering a *Training Course* to youth workers in order to help them fighting unemployment in their respective countries.

Participants will then turn into multipliers, in order to transfer the acquired know-how to youth organizations in the respective countries. This project promotes the participation and inclusion of young people with fewer opportunities. The idea of a *Training Course* is based on the need to gather together youth workers with experts that will equip them with competences and knowledge on employment in the social work sector. The course will transfer technical skills (i.e. CV and Motivation Letter writing techniques, hints to pass a job interview, working with E-Job Databases), social competences (the capacity to listen to others, to cooperate), and will enhance their civic disposition (strengthening youth sense of personal responsibility, motivating them to actively take part to their community life and to elaborate fresh ideas specifically in the context of youth unemployment).

The inter-cultural element of gathering together youth from different countries will encourage a sense of European unity and promote inter-cultural exchange of ideas and good practices. The intent of this process is to stimulate youth' spirit of initiative, creativity and entrepreneurship, and motivate them to actively engage themselves in civic processes.

An expected result is that young people create a multiplier effect by transferring knowledge to the youth organization in their respective countries.
